

Section 9.0 First Day (Part 1)

announcements

P 1. Where is the course content posted?

P 2. Which day of the week are homework assignments due?

P 3. When should you get help if you need it?

P 4. List at least one way you plan to get help when you need it.

P 5. A boy was bored in class one day. So to keep him out of trouble his teacher charged him with the job of finding the sum of the first 100 positive numbers. He looked at the teacher and after a few seconds smiled and said 5050. The teacher whipped out her calculator, punched a few buttons, and was amazed at how fast the boy came up with the correct answer without a calculator. How did he do it?
